## Main Distribution Frame

Item Code: STHMDF

### High Density Main Distribution Frame

Summit Telecom is China leading manufacturer provides High Density Main Distribution Frame For Central Office, and other Copper Central Office products.

#### Features:

- Application for FTTB indoor Connection (OLT Office Distribution)
- Installed With 10 Pair IDC module For Copper Connectivity Distributions.
- Designed for the 10 Pair disconnection Module, 100 pair MDF Terminal Block and 128 pair Testing Block.

- Material: Cold Rolled Steel.
- Double-side installation for modules: modules can be installed in each horizontal column and Terminal modules in each vertical column, which are connected respectively to the internal and subscriber lines with jumpers in between.
- Also Suitable for OverVoltage and OverCurrent Protection system
- Modularized frame structure: Anodic oxidized high-intensity aluminum profiles free the installation from drilling.
- Easy operation & maintenance: All operations, including the termination of internal & subscriber lines, testing, alarm system observation and troubleshooting, are done in the front face; the maintenance and testing of a line will not affect other lines.
- Also could be application as Telecom Copper Cable Cat5e UTP or FTP, or Copper Cable Go with Fiber Optical Cable and Distributed in the Floor.
