Mining Fiber Optic Cables

Item Code: STMFC-MGXTSV

MGXTSV Mining Fiber Optic Cable

NINGBO SUMMIT TELECOM CO.,LTD ALL RIGHTS
RESERVED 2012

Description

MGXTSV mining fiber optic cable is metal strength member, central tube filling, entrainment wire steel - polyethylene bonded jacket, blue flame retardant PVC sheath communication outdoor optical cable. Beam tube filled with water blocking ointment, between the beam tube and sheath filled water blocking tape, outsourcing blue flame retardant CMR.

Features

- The whole cross-section water-blocking structure to ensure good performance of water-blocking moisture
- Has a good flame retardant properties
- Loose tube filled with special ointment, a key protection for optical fiber
- Two parallel round wire both tensile strength, and resistance to lateral pressure
- Cable diameter is small, light weight, good bending performance
- Loose tube fiber optic cable in the physical center, the construction and convenient operation
- Product life over 30 years

Applications

- Suitable for long-distance communication and inter-office communication
- Laying: overhead, pipeline
- Operating temperature: -40 ~ + 60 °C
- Bend radius: static 10 x the cable diameter
dynamic 20 x the cable diameter
