Fiber Optic Splice Closure

Item Code: STFOSC-S001

New Sinking Type Telecom Well Fiber Splicing Box

ITEM CODE STFOSC-S001

ITEM CODE STFOSC-S001

We are China leading manufacturer for New Sinking Type Telecom Well Fiber Splicing Box, which makes telecom well operation better and more convenient.

Features:

- New sinking design for telecom well installation, flexible steel frame installed on the base, only need 70N pulling, the box could be pulled up from well, operators not need to go down well, just do operation upside. The steel frame using high quality steel after German QPQ process, better attrition resistance, corrosion resistance, fatigue resistance.

- Box body using high strength, high hardness German nano material.
- There are 12 pcs claw locks and rubber ring for waterproof as double waterproof

protection.

- Adopt mature heat shrink sealing technology.
- Excellent sealing, 350g drier inside to prevent condensation phenomenon.
- 12 ports on base for fiber entrance and exit.
- Splicing tray: PC material, rotation design for simple and convenient operation. There are fixing locks installed on the splicing tray holder to fix the tray from rotating.

- Capacity: 24 core for 1 splicing tray, 8 trays, totally 192 core.
- After fiber stripping, come into splicing tray, which could be operated within 1.5m from the frame.
- Rest pigtailed storage in the dedicated space in the base of box.

- Suitable for LC adapters.
- Dimension:460*350*550mm
