FTTH Construction

Tighten Adjustment Screw

Application

- Usage:

Wedge anchor with clip fittings
Supporting the use to further straighten.

- **Note:** accessories are used

- **Operating Essentials:**

A pre-spin at both ends of pitch pine to the largest, will end with a snap hook connected with anchor buckle, anchored the other end with interlocking pieces, after the completion of the dock to find that turning the screw counterclockwise to make both ends of the screw smaller distance, making the laying of fiber optic cable further straightening.
